

## “Smarter... Greener... Safer...” Project

### LESSON PLAN

#### LESSON PLAN\_ONLINE WORKSHOP... 2 CROATIA

#### Topic: ENTREPRENEURIAL SKILLS IN ENVIRONMENTAL EDUCATION

#### Brief description of the lesson:

Pupils do research on herbs, medicinal plants of the region. They learn how to recognize a particular plant, get familiarized with its environment, ways of reproduction, medicinal qualities, ways of using it.

#### Objectives:

Learning about the natural wealth of the region.

Learning about the medicinal qualities of plants and ways of using medicinal plants Learning when and how to pick a certain medicinal plant and how to preserve it for future generations.

Learning about the process of producing tea.

Learn to work in team.

#### Methods and techniques:

- Problem Solving
- Scientific method
- Brain Storming
- Cooperative learning
- Role play
- Learning by doing

#### Materials and tools to create a recycled product:

- herbs
- packing bags
- paper

#### Preparation:

dividing pupils into several groups (team work)

each team conducts a research on medicinal plants in the region and prepares a report on the conducted research

**Class duration:**

2/4 lessons

**Class activities:**

Each team of pupils presents the results of their research.

Each team chooses one or several medicinal plants. For each chosen plant they create a document with a description of the environment, ways of preserving and reproduction of the plant, time of picking and way of using it. Pupils learn about the ways of producing herbal tea. Pupils gather plants, clean them and prepare them to be dried.

**Procedure:**

Each team presents their plant (or several plants) through a film, presentation and a poster. Pupils present the gathered and dried plants. They pack them into the bags together.

Pupils think of ways of packing tea and how to present the information about the name of the plant, ways of using it and medicinal qualities and benefits for human health.

Pupils gather all expenses made in the production of tea, analyse them and try to form a market price which would bring profit in a small company.

**Evaluation:**

Pupils discuss the method of developing a business idea, developing a business plan (from an idea to a satisfied user of a product/service) and making profit.

Pupils discuss the natural wealth of the region as the foundation for a successful business.

**Prepared by:**
