

“Smarter... Greener... Safer...” Project

LESSON PLAN

LESSON PLAN_ONLINE WORKSHOP... 4 CROATIA

Topic: GREEN INITIATIVE, ELECTRONIC WASTE

Brief description of the lesson:

Pupils will get acquainted with electronic waste and right ways of electronic waste disposal. They will learn about dangers of irresponsible and improper disposal of electronic waste and its impact on the environment. They will imagine and carry out an initiative for responsible disposal of electronic waste in a school and local community.

Objectives:

Explain electronic waste

Understand the meaning of responsible and proper way of disposing electronic waste

Imagine and start an initiative to develop awareness of responsible and proper disposal of electronic waste

Create promotional materials that develop awareness of the importance of responsible and proper disposal of electronic waste

Learn to work in team

Methods and techniques:

- Problem Solving
- Scientific method
- Brain Storming
- Cooperative learning
- Role play
- Learning by doing

Materials and tools to create a recycled product:

Computer

Tools for creating posters, videos

School web site, local media, social networks

Preparation:

Preparing the creative workshop: creating videos, posters, presentations, leaflets dividing pupils into several groups (team work)

**Class duration:**

2-4 lessons

Class activities:

questions to discuss...

problem solving and brain storming: What is electronic waste? How do we dispose electronic waste?

In what way can we develop awareness in our class, family, among our friends, in our local community for the importance of responsible and proper way of disposing electronic waste?

Procedure:

Pupils get familiarized with the term electronic waste and its danger for the environment and people in case of improper disposal.

Pupils learn about different ways of responsible and proper dealing with electronic waste.

Pupils learn about the possibility of recycling electronic waste.

Pupils learn about programmes and tools for creating videos, posters, leaflets, ...

Pupils independently imagine and create promotional materials for raising awareness about the importance of responsible disposal of electronic waste.

Pupils carry out a campaign to raise awareness about the importance of responsible dealing with electronic waste.

Evaluation:

Pupils discuss the conducted campaign. They think about the successes of the campaign, notice the shortcomings in the realization of the campaign and plan further activities.
