**' Smarter...Greener...Safer...'**

## LESSON PLAN\_ONLINE WORKSHOP 4 FINLAND

**Topic: Green events**

**Brief description of the lesson: Pupils research famous people doing good for the environment. Simultaneously they study what the concept of sustainability includes.**

**Objectives: Pupils work in pairs or groups of three to gain more experience in teamwork and increase their awareness in environmental issues.**

**Methods and techniques: Teamwork, discussion and advertising.**

**Materials and tools: Pupils will give out their final result as a poster, a PP-presentation, a film or as a live performance.**

**Preparation: The teacher will provide the groups with paper, marker pens, cameras, computers etc. depending on the different demands of the groups.**

**Class duration: 2-4 lessons**

**Class activities: On the first lesson pupils will research the celebrities making an impact on environmental matters. During the second and third lesson they will innovate their own green event which they plan, present and advertise. The next two lessons there will be a fair of green events where each group will present their idea for the green event with promotion and advertising.**

**Evaluation: Pupils will evaluate the presentations and finally choose their favourite event to be held for the whole school.**

**Prepared by Anne Nurmi, Emäkoski School**
